

Skin Problems? Your Solution Has Arrived

Caraconat® is specially designed for all types of skins, to prevent and attenuate expression lines, spots, scars and premature aging. It has been formulated on the basis of three active and beneficial ingredients for skin care. The Snail Secretion has a peeling effect on dead cells and is a regenerator and cicatrization element. Organic Rose Hip Oil is well known world-wide for the regenerating, nourishing and hydrating effect of its essential fatty acids. Additionally, and for improved results, this cream has Coenzyme Q10 in its formulation. Coenzyme Q10 is a natural antioxidant of all cells and is effective in protecting against pernicious effects caused by free radicals, which are responsible for premature aging.

Snail Secretion

Has a peeling effect on dead cells. No snails were harmed while producing this product.

Organic Rose Hip Oil

Is well known world-wide for its regenerating, nourishing and hydrating effects.

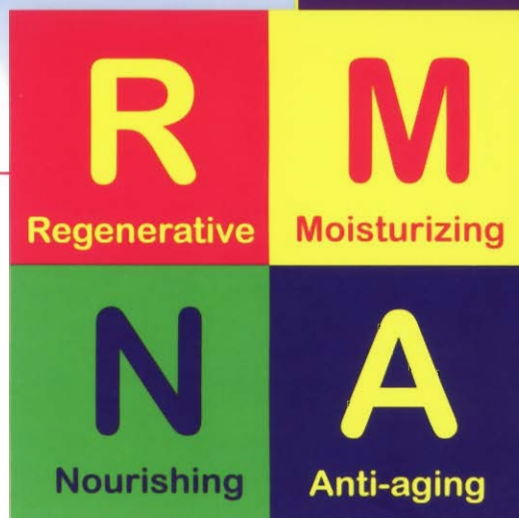

Coenzyme Q10

Is a natural antioxidant of all cells

- Peeling effect
- Regenerates cells
- Helps preserve skin elasticity
- Anti-inflammatory
- Fights bacteria that causes acne.
- Diminishes scars
- Eliminates certain types of skin spots
- Helps treat superficial wrinkles
- Helps treat and prevent stretch marks
- Quick penetration

Benefits

Snail Secretion

Snails have been used for a long time in gastronomy, being a delicious and sophisticated meal. The growers of Snails realized that the healing of small cuts on their hands was very fast and did not leave any marks behind. This effect was attributed to the extraordinary healing properties of the *Snail Secretion*, which is produced by these animals to cure their own skin and to repair their shell when it broke.

Organic Rose Hip Oil

Comes from the AP4 variety of Rose Hips. It is obtained organically through Coesam plantations located in Cabrero, Chile. Sun exposure, environmental stress, lifestyle and injury can all result in damage and unnecessary, premature aging of the skin. *Rose hip* oil is the perfect antidote. This unique oil is a power house of nutrients and essential fatty acids that play a vital role in the regeneration process of our skin cells and the repair of damaged tissues. *Rose hip* oil is an ultra-fine oil that absorbs instantly allowing the skin to breathe as it works, helping reduce the appearance of scars, fine lines and pigmentation; thus Restoring the skin's moisture balance.

Coenzyme Q10

The skin aging process is a consequence of an irreversible cellular degeneration induced by ultraviolet sun radiation and the action of free radicals. The coenzyme Q10 is a powerful natural antioxidant of the body, stimulating the basic functions of all cells providing them with energy and protection. This antioxidant function is a powerful anti-aging agent.
